legitimate hunting and fishing activities by examining the applicant's particular circumstances, including, but not limited to his or her reasonable need for a temporary facility and any reasonable alternatives available that are consistent with the applicant's needs. The Superintendent shall also consider whether the proposed use would constitute an expansion of existing facilities or use and would be detrimental to the purposes for which the national preserve was established. If the Superintendent finds that the proposed use would either constitute an expansion above existing levels or be detrimental to the purposes of the preserve, he/she shall deny the permit. The Superintendent may authorize the replacement or relocation within the national preserve of an existing temporary facility or structure.

(B) The Superintendent shall deny an application for a proposed use that would exceed a ceiling or allocation established pursuant to the national preserve's General Management Plan.

(iv) *Permit terms.* The Superintendent shall allow for use and occupancy of a temporary facility only to the extent that such facility is directly and necessarily related to the permittee's hunting and fishing activities, and shall provide that the temporary facility be used and maintained in a manner consistent with the protection of the values and purposes of the park area in which it is located. The Superintendent may also establish permit terms that:

(A) Limit use to a specified period, not to exceed the applicable hunting or fishing season and such additional brief periods necessary to maintain the facility before and after the season;

(B) Require the permittee to remove a temporary facility and all associated personal property from the park area upon termination of the permittee's hunting and fishing activities and related use of the facility or on a specific date;

(C) Require reasonable seasonal relocation of a temporary facility in order to protect the values and purposes for which the park area was established;

(D) Require that a temporary facility be used on a shared basis and not exclusively by the permittee; and

(E) Limit the overall term of a permit to a reasonable period of time, not to exceed one year.

(8) *New cabins and other structures otherwise authorized by law.* The Superintendent may issue a permit for the construction, temporary use, occupancy, and maintenance of a cabin or other structure which is authorized by law but not governed by any other paragraph in this section.
